Applicant's election of Group III including claims 24-27 and 30 in the reply filed on 28 October 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application is in condition for allowance except for the presence of claims 1-23 and 28-29 to invention non-elected without traverse above. Accordingly, claims 1-23 and 28-29 have been cancelled.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In The Claims

Claims 1-23 and 28-29 have been cancelled.

A telephone call was made to Eric B. Hall on 11-07-2005 to cancel the non-elected claims above, but did not result in an examiner's amendment being made.

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose a method for detecting the time arrival of a plurality of ions at a detector surface, which includes means for centroiding the electron charge fraction appearing simultaneously on nearest neighbor anodes in an anode array to determine the number ions impinging the detector surface, the time of arrival of each the impinging ion, and the spatial location at which each the impinging ion collided with

the detector surface as recited in claim 24; or means for deserializing a modulated serial data stream to determine the time of arrival of ions as recited in claim 30.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kiet T. Nguyen whose telephone number is 571-272-2479. The examiner can normally be reached on Monday-Friday 8-6.
